

Artfoam Conservation Foam Board

The Conservation Alternative to MDF

Artfoam Conservation Foam Board is an excellent dense foam centre board with high quality acid neutral* mat paper liners – a great alternative to conventional clay coated/plasticised boards.

**Rigid – lightweight
clean cutting – good memory.**

White acid neutral mat paper faces both sides. Use it for all conservation framing as the alternative to MDF; for mounting and all your graphic display work.

Available in 3mm and 5mm thickness at prices** to make Artfoam your conservation backing board of choice.

3mm	30" x 42"	£1.99
5mm	60" x 40"	£3.99

* Face paper buffered to give guaranteed pH neutral values for life.

** When purchased with glass & other framing materials.
